

SPRING 2017 - Seminar Schedule

<i>Date / Time</i>	<i>Speaker</i>	<i>Title</i>	<i>Location</i>
Friday, March 17 11:00 am	Eric D. Wetzel, Research Scientist Army Research Laboratory	"Rate-activated tethers: Wearable smart materials to reduce mechanical injuries to the body and brain"	106 CCM
Friday, April 7 11:00 am	Jeffrey W. Kysar, Chair and Professor Mechanical Engineering Columbia University	"Two-Dimensional Materials: Mechanical Stiffness, Strength and Reliability"	106 CCM
VINSON LECTURE Friday, April 21 11:00 am	Dr. Tsu-Wei Chou, Professor and Pierre S. duPont Chair of Engineering University of Delaware	"From structural to functional composites: a personal journey"	106 CCM
Friday, May 5 11:00 am	Ellen M. Arruda, Professor University of Michigan	"Anterior Cruciate Ligament Biomechanics: Characterization, Modeling, and Implementation into Whole Knee Simulations"	ISE LAB 307
